IEEE Standards Association

About IEEE

- IEEE represents more than 423,000 members in 160 countries, with 46 Societies and technical Councils covering a wide range of IEEE technical interests.
- Publish more than 180 transactions, journals, and magazines.
- Sponsored more than 1,800 conferences in more than 95 countries.
- Developed more than 1,800 standards and projects.
- 330+ Sections in our 10 geographic Regions.
- Nearly 4 million documents in the IEEE Xplore® Digital Library.
- Offices in Austria, China, India, Japan, Singapore, and the United States

IEEE-SA + Open Source

- IEEE-SA has supported a number of open source standardization projects instantiated over the course of its standardization
- Projects were instantiated across the standardization lifecycle
- Many were supported on an ad hoc basis
- However, the number has increased over time and we have come to a point requiring better and appropriate governance with proper support
- Given this, we are designing an environment that enables our membership to utilize a standardized framework of open source licenses, CLAs and technology platform to support their open source needs
- The intent is for the environment to support our standardization membership as well as across the IEEE, inclusive of our Humanitarian focused initiatives
